VOLUME XXI—NO. 13 | CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, MONDAY, JULY 26, 1920 | TWO CENTS

NEW COAL ORDER FOR LAKE SHIPMENTS IS NOW IN EFFECT

Thirty Per Cent Of Production Outside Of Priority For Lakes

BIG DIFFERENCE IN THE PRICE

Coal shippers along the Monongahela all trivay were notified on Friday of the manner in which Order No. 10, which went into effect today, will be enforced on that line. So far as is known the Baltimore & Ohio and Pennsylvania railroads have reserved no instructions for the enforcement of the order.

The Monongahela will place an embargo upon all shipments of coal except railroad fuel, priorities authorized under Order No. 9, and moividual cars, until each plant has consigned 30 per cent of its coal car rating to the Ore and Coal Exchange, Cleveland, H. M. Griggs, manager. After the order has been complied with the remainder of the day's shipment may be consigned to any other open territory.

While the order on its face requires 30 per cent of coal car rating to be consigned to the Celeveland pool the exceptions cut down substantially the percentage of shipments which must be sonsigned to the lake. Order No. 9 gives preferential car supply to public utilities and public institutions. Consumers having their own coal cars are not included in working out the percentage.

Order No. 10 is designed to increase coal shipments to the lake trade, which is far behind in its coal receipts. At the present time there is but little coal from this territory moving to the lakes, because of the divergence of price views of consumers in that territory and those in the eastern market which seems to set the price pace for this district. There is a variance of $3 to $4 a ton in the price at the two consuming points

Mining conditions in the west, and which are to an extent, influencing certain fields in Pennsylvania, are not very satisfactory at the present time. Illinois miners are striking for a higher rate of wages than the scale calls for; in the Butler district it is reported that certain operators are offering their men a bonus; this latter feature is causing men to go from one mine to another, and is causing a great deal of confusion and dissatisfaction. So far the Pittsburg district, which is one of the chief producers of bitumen, has not been affected by this agitation, although, many of the mines are short of labor. River shipments are practically keeping most of the big mills in this district in operation.

I will collect that rent, positively in advance and guarantee no vacancies. Clyde B. Cope, Real Estate and Insurance, 315 McKean avenue. 21-tf*

Mrs. Emma Dawson left this morning for Morgantown, where she will spend ten days vacation.

WORK RESUMED ON EAST BETHLEHEM ROAD

Work was resumed last week on the new state highway through East Bethlehem township. Brooke & Cornish the contractors on this job arrived in Fredericktown on Monday of last week with a large force of workmen and work was resumed at once. The contractors have three cars of stone on the way and a promise of delivery of one each day until thework is completed. With favorable weather the road can be completed this year.

FUNERAL SERVICES FOR MYRON B. JOBES

Funeral services for Myron B. Jobes were held Sunday afternoon at 2.30 o'clock, from the home of his parents, Mr. and Mrs. Louis E. Jobes 627 McKean avenue, and were largely attended. Hundreds of friends of the family and of the young man were in attendance to pay their respects and to show the esteem in which the deceased was held in the community.

The services were in charge of Myron's pastor, the Rev. John R. Burson, of the Washington Avenue Presbyterian church. His text was taken from the tenth chapter of Mark, 21st verse, "Jesus looked upon the young man and loved him." The pastor spoke of the young man's contribution to the nation, to his community, to the church and the home. The responsibilities of the young man for making the most out of his life in forming good habits, cultivating his mind, and in forming human associations that will make for the uplift of society. He quoted from Ruskin, "The finest contribution any young man could make to human life was to perpetuate the manhood of Jesus Christ."

A quartet composed of Misses Blanche Allison, Grace Fleming, John F. Bowman and John H. Clutter rendered three selections, "Lead Me Gently Home, Father," "Our Heavenly Mansions," and "Somewhere the Sun is Shining."

At the conclusion of these services Charleroi Lodge No. 494, B. P. O. E., held their ritualistic services.

Members of Charleroi Post, No. 22, American Legion, attended in a body in uniform, and furnished a firing squad to render last honors to the deceased at the cemetery.

The pall bearers were William Pegg, George Vetter, Frank Delveaux, Ralph Williamson, Alexander Stephenson and Carl Miksch.

STEEL ORGANIZERS HAVE QUIT DONORA

It is said that the steel organizers, who have been features in the industrial life of Donora for the past year and a half, have finally withdrawn from that community and apparently have given up the mills at that place as a thankless job.

Delegates Tell Of Work At Mountain Lake Park

At the Methodist Episcopal church on Sunday the pastor spoke in the morning on "Our eighbors." After stating the need of neigborly relations and illustrating by the experiences of Alexander Selkirk, or Robinson Crusoe, Byron's Prisoner of Chillom, Henry D. Thoreau and John Burroughs, he treated the subject under three sub-divisions: 1, personal expression of the neighborly spirit; 2, national expression of the neighborly spirit; 3, church expression of the neghborly spirit.

In the evening the Chautauqua vesper program was used and the young people who attended the Mountain Lake Park Institute reported the work done there. Elva Majors described the grounds and told of their acquisition by the M. E. church and their future use; Mary Welsh spoke of the social feature of the institute and quoted freely from one of Bishop Berry's lectures; Lester Beazell described three social evenings; Kenneth Watters told of the work of theprayer groups. Priscilla Murray related experiences pertaining to early morning prayer group work; Vida Goehring outlined study and work of the first or spiritual department; Mattie Kelly explained the work of her department in the Epworth League; Hazeldell Lambert related facts and experiences pertaining to her department work, and the President, Joe Pearson, spoke briefly of the different salient features of the institute.

The young people sang two of the institute hymns, which were greatly enjoyed by the congregation. Other members of the Epworth League than those already named who attended the institute sessions were Irene Chester, Anna Watson, Esther Hall, Elma Lutes, Harold Beazell, Alvera Lambert, Hazel Peters, William McClurg, Prof. Carroll and Rev. Greenlee.

RUN DOWN AND KILLED BY TRAIN

Just as she was walking across the railroad tracks at Duquesne to rejoin relaives and friends after she had purchased a ticket to come home, Mrs. Anna E. Lusk, aged 67 years, one of the most widely known women in Monongahela, was instantly killed about 6 o'clock Saturday evening when struck by a passenger train.

Presence of mind and bravery on the part of Harry Parton of Monongahela prevented Russell Lusk, her grandson, from meeting asame fate. As the train bore down upon the aged woman and boy, Parton leaped out and grabbed the youngster and jumped back to safety.

Hundreds of people who had been attending the annual outing of the Knights of Malta at Kennywood Park witnessed the fatal accident

Mrs. Lusk was the daughter of William and Sarah Sumney of Kammerer. On November 20, 1878, she was married to William B. Lusk, who survives, and who is a veteran of the civil war. Mrs. Lusk had spent her entire life at Kammerer and in Monongahela. She was a member of the Methodist Episcopal church. Fraternally, she was united with the Dames of Malta, Ladies of the G. A. R. and Daughters of Rebekah.

Besides the husband she is survived by three sons and one daughter, J. Mansell Lusk of Charleroi; Charles K. and Ellsworth Lusk of Monongahela, and Mrs. Luther VanVoorhis of Vanvoorhis.

Funeral services wil beheld at the Lusk home, Third street, Monongahela, Tuesday afternoon at 2 o'clock interment in Monongahela cemetery.

Mr. and Mrs. Aussprung have left for their home in Tarentum, after spending a few days at the home of the latter's son, Joseph Wentzel of Meadow avenue.

Use the Classified Column.

THIEVES STRIP STRANDED AUTO

Leaving an automobile anywhere on a road in the vicinity of Donora is said to be about as safe as a robin's nest built on the under side of a railroad track. Milton Devardi covered this on Wednesday, when following a mishap on Tuesday evening on the Eldora road he went back to recover his car that had been ditched.

The car skidded and went off the road when a back tire blew up. Owing to a bent axle the machine could not be moved at the time and when he went back to get it he found that the honest citizens traveling that way had preceded him. A steel tool box on thecar had been pried open and about $50 worth of tools taken. In addition to this a spare tire, the radiator meter, the back seat and other parts of the car had disappeared.

WILL DISCONTINUE SPEERS POST-OFFICE

Patrons of the post office at Speers have been notified by the post office department that the Speers office will be discontinued on the 14th day of August, and all mail addressed there after that date will be sent to the Belle Vernon office. For some time the office has not been paying and it has been very hard togetany one to look after the business there. The rural route, which formerly started from the Speers office, was taken from there several months ago and given to Charleroi. This took away considerable revenue from the office and made it even harder to get any one totake charge of it.

Bell Phone 9087, California, Mrs. E. F. Lindberg, manicuring, shampoo and facial massage. Make appointments. Will call at your home. 21-tf*

HEARING IN LIQUOR ROBBERY TO BE HELD WEDNESDAY NEXT

CONTINUE CRUSADE AGAINST TRESPASSERS

Pennsylvania railroad officers still continuing the crusade against trespassers on the railroad track. Nine new charges for trespassing on the property of the Pennsylvania in the borough of Donora were filed on Friday last before Justice Charles Ford in that borough by Sergeant J. W. Pursglove. The officer said it is the intention of the police to continue prosecutions until the practice broken up

BITCHED HIS CAR TO SAVE HIMSELF

Jules Monack, while driving along the National pike near Hopwood, east of Uniontown, Sunday afternoon, was compelled to ditch his Peerless car to allow two racing machines coming in an opposite direction to pass him. His car was damaged to a considerable extent, and had to be left at the Tillow garage in Uniontown for repairs.

One of the machines which was racing skidded just after passing Mr. Monack's car and turned over, injuring all five of the occupants, who were residents of Belle Vernon. Two of the men in the car, John Nuzzo, aged 32, and Guido Lattore, aged 29, succumbed to their injuries in the Uniontown hospital shortly after being taken to that institution. Celestine Mitchell, aged 49, had his skull fractured and his daughter Carrie, aged 18, was lacerated and bruised. They were both taken to the hospital. The driver of the car, Bastiste Brincko, aged 30, who was cut by glass and bruised, was later arrested on a charge of fast driving.

DONORA FEARFUL OF MORE TRAGEDIES

Fear is expressed that another tragedy may occur on the tracks of the Pennsylvania railroad unless parents exercise acloser supervision over their children and keep them off the right of way of the railway line. Twice this week children have been taken from the tracks near Sixth street, six small boys being in one group. Children are being sent to the mills with their fathers' lunch and this fact has added to danger of an accident at crossings.

It has been suggeted as a means of reducing the amount of danger that the railroad company fence in its right of way through the borough, as it would have a perfect right to do. If this would be done in the congested portion of the borough it minimize the danger incidental to that district. One father only a few days ago rescued his 4-year-old son from the tracks just a few minutes before an express train dashed by traveling more than 50 mile an hour.

Much Interest Attaches To the Outcome of Inquiry Before U. S. Officials

SIX BARRELS ARE STILL MISSING

Much interest centers in the hearing to take place in Pittsburg on Wednesday, when nine men alleged to have been connected with the robbery of the Vandergrift distillery, at Vestaburg Station, June 27, who are now under $1,000 bail, will appear before the United States Commissioner on that date to answer charges of receiving stolen goods, and transporting liquor without a permit.

The men under bail are William Crockett, Fred Anderson, A. J. Hayette, Dunran Lyon, Superintendent Locke of Vesta mine No. 5, Harry Jenkins, Peter Brofill, Earl Edwards all of East Bethlehem township, and John Edwards of California.

It appears that the liquor in question, eight barrels, was removed from the distillery and taken to the Kenney farm near Centerville, and there placed in a garage. The garage was broken into and the liquor removed by unknown parties. Upon investigation being made by revenue agents from the Pittsburg office, two barrels of stolen liquor were found in the cellar of Mr. Locke's home at Vestaburg, and a barrel at the home of John Edwards in California. The balance has not yet been located, according to the latest information given out.

Crockett, Anderson, Hayette and Lyon were arrested under the charge of moving liquor without a government permit, and with felony. The other men under bail are charged with receiving stolen goods. The revenue agents were assisted by Chief of Police Louis Verdezer, of Fredericktown.

While the revenue agents were in the Fredericktown vicinity, they made a trip over to Clarksville, on Ten Mile, where considerable bootlegging has been going on. They captured three stills and a part of another and confiscated 30 gallons of mash and five gallons of iquor. It is reported that the liquor has been selling in that vicinity for $22 a gallon.

THUG VICTIM WILL GRADUALLY RECOVER

Lem Carlson, a former police officer of Monessen, who was assaulted on the streets of that town one night a few week ago, is progressing toward a very slow recovery in the McKeesport hospital. The physicians have decided, after making an X-ray examination and observation not to make any operation, believing the patient will gradually get back to normal, although it will be a long and tedious recovery. According to hospital physicians he is suffering from a severe shock and strain.

AMERICANS AND MEXICAN OIL.

If Mexico were a poor country there would probably be very few causes of friction between that commonwealth and United States. But Mexico is very rich in gold and silver and richer still in oil deposits. Unprogressive Mexicans have allowed these riches to fall largely into the hands of foreigners chiefly Americans, awakening only tardily to the need of looking after their country's interests in this particular. They now propose to secure to Mexico a large share of this mineral and oil wealth by means of heavy taxation of foreign holders much to the alarm and indignation of the latter. American investors are believed to have long desired the annexation of northern Mexico to the United States and to have compaigned industriously to that end, even cooking up border disturbances, it has been charged, with a view to inflame the American public and manufacture a war spirit The Mexicans accept this charge as fact, with inevitable consequences.. On the surface international friction is caused by border disturbances, but beneath the surface may be found the real cause of trouble in the Mexican riches which foreigners hold.

In an open letter dealing with the oil controversy between American proprietors and the Mexican government Robert Pesquiera says that what the Mexicans are concerned to know is "does Mexico get her share of the wealth which justly belongs to her?" He decalres that on-third of the world's oil is in Mexico and that the single field of Huasteca, controlled by Americans, if thoroughly developed would equal the Russian output of 1919. He says his government rightly intends to derive a large revenue from the oil lands by requiring permits for drilling, imposing new taxes and establishing the principle of nationaliation. The new Mexican government announces that this problem will not be solved in an arbitrary manner and invites American oil proprietors to come to the capital to "discuss the situation." Naturally the American proprietors are keenly interested to know whether the new taxation will be equitable or virtually confiscatory. According to ex-Secretary Lane, the United States government has never attempted to confiscate oil on privately owned lands It is feared by American proprietors that the Mexican government will make no distinction between leases lawfully obtained from private owners with sound titles and nationally owned lands.

It may be that good relations between the United States and Mexican governments considerably depend upon an equitable settlement of this controversy. It is to be hoped, therefore, that both the American proprietors and the Mexican government will exhibit good sense and moderation of spirit. The latter would be wise not to propose to take too heavy a toll, and the former should reflect not only that there can be no resistance to nationization as applied to government lands but that Mexico can of right impose extra taxation on foreign holders.

Fine Old Hen.

Lord Fisher tells of this blunt but amusing compliment paid to his country by an American admiral. It was at a dinner. Fisher had made a speech in which he said some nice things about America, and at the conclusion of it the admiral arose and reciprocated by saying: "It was a fine old hen that hatched the American eagle."—Boston Transcript.

WOMAN'S BEAUTY NO SECRET.

It all lies in the care she bestows herself and in keeping at bay those dread ills peculiar to her sex. The flashing eye, the elastic step and clear complexion never accompany chronic troubles. The distressed condition, lassitude, headaches and mental depression are only the telling symptoms. Women so troubled should take Lydia E. Pinkham's Vegetable Compound, that simple remedy made from roots and herbs, and restore their health to a normal condition.

Remember your dead. W. S. Cook and Co. Monuments with Lawrence Frye Funeral Director. 208tf

Electric Ovens.

Electric heat finds its widest use in ovens, which have proved specially valuable in the automobile industry for baking the japan on car bodies. By this means japan is baked on 3,000 bodies every day. Other large users of such ovens are telelephone and typewriter factories, foundries, makers of iron frames for beds and cots and manufacturers of chemicals. Electric devices of the sort are employed for baking effervescent salts, and for drying a large variety of products requiring well-regulated heat and clean air in the oven itself.

"Electoral College."

Properly speaking, there is no such institution as an electoral college. The electors, who are voted for by the people, meet in their respective states and cast their votes for president and vice president. These are sealed and sent by special messenger to the vice president of the United States, acting as speaker of the senate. He delivers them to the speaker of the house, who, in the presence of both houses of congress assembled, opens the vote and declares the result.

Plastic Amputations.

Dr. G. Bosch Arana of Buenos Ayres has made a remarkable success in modeling the stump of an amputated thigh by the plastic operation. In the Semana Medica (Buenos Ayres) he gives details of the way he remodels the stump so as to utilize the individual muscles and describes the extent to which the man moves his foot, thus walking by the natural bending of knee and ankle.

One Parental Duty.

It is almost a crime for parents to rear children to manhood or womanhood without teaching them, or seeing that they are taught, how to swim. Everybody should know how to swim, for one never can tell when or under what circumstances ability to take care of oneself in the water may spell the difference between life and death.—Atlanta Constitution.

Had the Spirit of Thrift.

What a quaint jumbling of thoughts on waste of power must have been in the mind of the little girl who said half her prayers one night, and then was interrupted. She stopped, began all over again, and then, struck by the strangeness of the repetition, looked up and exclaimed, "There now! I've wasted half my prayers."—London Morning Post.

Reason for Friendship.

Almon had never taken a liking to Junior, and rarely played with him. Several days ago I noticed that he must have overcome his dislike for the elder boy, and upon questioning my small friend, he modestly explained "Junior's daddy bought a grocery store that keeps my favorite candy."—Chicago Tribune.

Safeguarding the Goat.

In Switzerland the goat is placed ahead of all other animals. If a boy plagues a goat he can be fined and sent to prison. If a person meets a goat on a path and drives him aside he can be arrested. If a goat enters the yard of a person not his owner, and is hit, the person guilty must pay a fine.

Watch Your Weight.

Medical men all agree that in a great number of cases it would be of valuable assistance to them if patients could produce a weight record when going for advice; often it is impossible for a diagnosis to be given until a patient has tested his or her weight for a certain length of time.

He Sucks the Blood.

When mice and other small animals are abundant, a weasel makes great havoc among them, says the American Forestry Magazine, killing one after another, merely to suck a part of the fresh blood, and then abandoning the bodies for some other animal.

From the agony column: "Young man, recently rejected, desires apartments adjoining those of young couple possessed of a baby that cries all night, causing father to promenade in pajamas; good lond swearer preferred."—Boston Transcript.

Honeymoon Had Waned.

First Neighbor—"Well, the newly weds' honeymoon is about over." Second Neighbor—"I saw him kiss her this morning with his hat on his head, his hand on the doorknob and his eye on the clock."—Pitt Panther.

Intelligent Doing.

A man in proportion as he is intelligent, makes a given force accomplish a greater task, makes skill take the place of muscles, and with less labor gives a better product.—Channing.

Original Pins.

Until the middle of the sixteenth century the poorer class in England used rude skewers of wood as pins, while the more fortunate had pins made of gold, silver and brass.

Ermine Fur.

The ermine fur, with which we are all familiar, is furnished by the stoat, a small animal of the weasel tribe.

ORDINANCE NO.....

AN ORDINANCE authorizing and directing the Borough of Dunlevy, Washington County, Pennsylvania, to enter into and execute an agreement with the West Penn Power Company for lighting the streets, alleys, highways and public places of the said Borough of Dunlevy.

Section 1. Be it ordained and enacted by the Borough of Dunlevy, in council assembled, and it is hereby ordained and enacted by the authority of the same, that the said Borough enter into and execute an agreement with the West Penn Power Company in form set forth in Section II of this ordinance providing for the lighting of the streets, alleys, highways and public places of the said Borough.

Section II. "This agreement made and entered into this 16th day of July, A. D. 1920, by and between the West Penn Power Company, hereinafter called "Producer," party of the first part, and the Borough of Dunlevy, Washington County, a municipal Corporation of the State of Pennsylvania, hereinafter called "Consumer," party of the second part.

WITNESSETH, That in consideration of the payments, covenants and agreements hereinafter contained to be paid, kept and performed, it is mutually agreed between the parties hereto, their successors and assigns, as follows:

Paragraph 1. Producer agrees to light the streets, alleys, highways and public places of said Consumer by its standard system of commercially rated incandescent street series lamps or lamps of equivalent illuminating power, erected upon its system of overhead distribution lines, as herein specifically enumerated, or as may be ordered by the Consumer through its proper officials from time to time during the life of this agreement.

Paragraph 2. At or before the execution hereof, Consumer shall furnish Producer a list, certified by its engineer or other proper authorized agent, showing the locations and size of each and every lamp included in the number hereinafter specifically provided for Producer agrees to locate said lamps at such location as may be designated by the proper authorized agent of Consumer.

Paragraph 3. Producer agrees to relocate any lamps furnished under the terms of this agreement which do not require the extension of lines or erection of poles; however, Producer shall not be required to make more than one change in the location of any one lamp.

Paragraph 4. Producer shall not be required to extend its lines more than three hundred (300) feet for any additional lamp; nor be required to install any lamp within six (6) months preceding the expiration of this agreement.

Paragraph 5. Producer shall replace and repair the pavements and sidewalks of the streets and alleys wherever damaged in the erection and maintenance of its poles, wires, and other appliances, in as good condition as such pavements and sidewalks of the streets and alleys were in before the disturbance of the same by Producer.

Paragraph 6. Producer shall cause all of said lamps toburn continuously every night from dusk until dawn during the term of this agreement,but shall not be liable for damage to Consumer or any failure to keep said lamps, ighted, resulting from accidents, strikes or causes beyond its control.

Paragraph 7. Producer agrees to maintain, clean, and make such lamp renewals as renecessary to furnish the illumination provided for herein.

Paragraph 8. The rates at which Consumer shall pay Producer for lighting service to be furnished hereunder and the number of lamps of the respective sizes to be initially covered hereby shall be as follows:

600 Candlepower lamps, each at $70.00 per annum.

400 Candlepower lamps, each at $55.00 per annum.

250 Candlepower lamps, each at $40.00 per annum.

100 Candlepower lamps, each at $30.00 per annum.

80 Candlepower lamps, each at $25.00 per annum.

Tweive (12) 60 Candlepower lamps, each at $21.00 per annum.

Additional lamps will befurnished by Producer at said rates during the term of this agreement upon the proper written order of Consumer. The following block discounts will be allowed on monthly gross charges calculated from above rates in consideration of the five (5) year term for which this contract is made:

First $100—Net.
Next $100—1 per cent.
Next $100—2 per cent.
Next $100—3 per cent.
Next $100—4 per cent.
Next $100—5 per cent.
Next $100—6 per cent.
Next $100—7 per cent.
Next $100—8 per cent.
Next $100—9 per cent.
Next $100—10 per cent.
Next $100—11 per cent.
Next $100—12 per cent.
Next $100—13 per cent.
Next $100—14 per cent.
All in excess of $1500—15 per cent.

Producer shall, upon written request of Consumer, change or install any of the lamps ordered, to lamps of a greater candlepower notto exceed any size adopted or used by Producer and which shall bepaid for at the rate adopted by Producer or as above set forth.

Paragraph 9. It is further agreed that Producer shall furnish to Consumer at any time during the term hereof, any other electric light or power service not exceeding ten(10) horse power demand on any service connection, which may be furnished from Producer's then existing facilities, which Consumer may order in writing and which shall be paid for by Consumer in accordance with the rates, rules, regulations and form of contract on file with the Public Service Commission of Pennsylvania.

Paragraph 10. Bills for street lighting service covered by the annual charges hereinbefore enumerated shall be due and payable monthly on or before the tenth day after that in which bill is rendered.

Producer shall render bill for each month's service on or before the 5th day thereof, based upon the number of lamps in service at the close of the preceding month. Charges for metered service, additional lamps installed during any month and credits for outages shall be calculated and included in the statement rendered at the beginning of the month next following.

Bills remaining unpaid on the fifteenth (15th) day of the month next following that during which the same are rendered, shall bear interest at the rate of six (6) per centum per annum.

Paragraph 11. Consumer, by its authorized agent, shall notify Producer in writing at its local office and all outages and location of same not later than 12 o'cock noon on the day following the night upon which such outages occur.

A reasonable extension of time will be allowed for such notice to reach Producer's district office, in event of there being no office located within Consumer's boundaries.

Producer shall allow credit on gross bills before any discounts are applied for all outages so reported which exceed two consecutive hours. Said credit to be thepro rata amount of the gross rate, based on 4.000 hours of burning per lamp per year.

Paragraph 12. It is hereby understood and agreed that neither the purpose, intent, nor obigation of this contract, if when approved by the Public Commission of the Commonwealth of Pennsylvania, is such as to impair or in anywise affect the exercise of said Commission of any of the powers vested in it by the Public Service Company Law, approved July 26, 1913.

Paragraph 13. This agreement shall be binding upon the parties hereto, from and after the date of execution hereof, and shall continue in full force and effect for a period of five (5) years from the date on which at least fifty (50 per cent) per centum of the street lighting service enumerated in Paragraph No. 8 hereof is first furnished.

Paragraph 14. All agreements or portions of agreements between th parties hereto inconsistent herewith are hereby cancelled, annulled, and made void in so far as the same conflict with the provisions hereof.

IN WITNESS WHEREOF the parties have caused this agreement to be executed in triplicate on the day and date first above written, done on the part of Producer by its President or Vice President, attested by its Secretary or Assistant Secretary and on the part of Consumer by its President of Council and Secretary in pursuance of an ordinance duly adopted on the 6th day of July A. D. 1920 and approved by the acting Burgess on the 13th day of July A. D 1920.

WEST PENN POWER COMPANY.
By .....
Vice President.
.....
Secretary.
Borough Of Dunlevy
By Frank Hopwood.
President of Council.

Mathew Lynn,
Secretary.

Section III. Be it further ordained and enacted that the President of Council and Secretary of said Borough be and they are hereby authorized and directed to execute on behalf of said Borough said agreement with the said Company in form set forth in Section II of this ordinance.

That all ordinances or parts of ordinances conflicting with the provisions of this agreement be, and the same are hereby, repealed in so far as the same conflict with the provisions hereof.

Ordained and enacted into an ordinance and executed in tripicate this 6th day of July, A. D. 1920.
Attest:
Mathew Lynn
Secretary of Borough.
Frank Hopwood,
President of Council.

Examined and approved by me this 13th day of July A. D. 1920.
Attest:

Youth's Irreverence.

One evening mother wanted us children to go to lenten services with her. One of our favorite movie actresses was on the screen that nigh, and brother wanted to see her. Mother wouldn't let him and made him go to church instead. He lost his patience and said, "Gosh, I wish they would stick the sign out, 'No children allowed.'"—Exchange.

Willing to Take a Chance.

Mother was trying to give her small son a dose of castor oil, and after much coaxing and pleading he would not swallow it. She said to her husband: "I guess will not take the oil; we will have to use main force." Billy's ears (eavesdropping) and he said: "Daddy, bring the main force and I will try to swallow that."

Filipino Proverbs.

There is a certain dignity in many of the proverbs native to the Philippine islands. "A hero is bruver for his wounds," the Filipinos say. "The quality of gold is known by rubbing it against a stone." "He who despises counsel is on the way to misfortune." "Whoever believes everything that is said has no mind of his own." In some there is gentle humor. "A sleeping shrimp is carried away by the current." "A fish is caught by the mouth." "If you sleep, brother, the crocodile will eat you up."

Funnel Made From Milk Bottle.

A funnel that has a wide range of application about the household, and especially in food-canning season, may be made by cutting the body of an ordinary milk bottle. The bottle is trimmed at the desired point by tying an alcohol-saturated cord around it and applying a match. The glass will break evenly at that point. After breaking, the edge is smoothed off on an emery wheel and the funnel is ready for use.

Something of an Imputation.

A well-known surgeon was performing an operation on a patient when a fire started at a warehouse across the road, illuminating the whole operating theater. Having finished, the surgeon turned to the nurse and said dryly: "I say, nurse, I notice the patient is coming to. I think you had better draw the blinds. I don't want him to think the operation hasn't been a success."

Carnegie "Hero Fund."

In April, 1904, Andrew Carnegie established a hero fund of $5,000,000 for the benefit of the dependents of those losing their lives in heroic efforts to save others, or for the heroes themselves, surviving though injured. The endowment is known as the Carnegie hero fund and is placed in the hands of a committee composed of 21 persons, residents of Pittsburgh.

Something Just as Good.

Americans demand poetry that is "red-blooded, human and vital," according to one who calls himself an authority. The supply of this kind of poetry will always be limited, it is to be feared, but there is plenty of fiction that would serve as a substiture, to say nothing of the movies.—Rochester Democrat and Chronicle.

The Coconut.

Over eighty distinct methods are in vogue for the utilization of the coconut. Every year about 8,000,000,000 nuts are cultivated; of this quantity, 50 per cent are consumed in the East and elsewhere as food, 20 per cent are transformed into oil, and only about 30 per cent find their way to the markets.

Guides for Airman.

The airman's guideposts are the natural landmarks, rivers, mountains, lakes, forests. The artificial guideposts are cities, bridges, roads. Uniform signs for particular classes of landing fields and signs showing whether the terrain is good or bad have been adopted by the government.

Getting Over the Difficulty.

Two little boys, James, 5, and Alex., 4, went to their aunt's house and she had always given them something to eat. This time, however, she had forgotten and as they were leaving Alex said to James: "Ask me if I am hungry?"

Revolutionary Congress.

There was no United States government until after the adoption of the federal Constitution in 1789, and the congress in existence during the Revolutionary war was the continental congress of the colonies.

A Pedigreed Used Car Makes A Satisfied Owner

To quote a former owner:
The used car was all that you could expect also the treatment that I received was very good. I am now in the market for another used car and I would sure like to buy from you if possible.

We don't like to toot our own horn but can't see how he could have been otherwise.

Get a Pedigreed used car and share his feeling

REPAIRS COMPLETED ON NATIONAL PIKE

Although all work has been completed, the strip of the National Pike west of Uniontown has not yet been opened to traffic, and probably will not be until some day next week. The contractors are waiting a final inspection of the work by a state highway inspector. The work was completed some days ago and instructions were received to allow the road bed to settle a few days before throwing it open to traffic.

The fact that this piece of highway has finally been repaired that it will be thrown open to general traffic, will be good news to automobile owners, who have been discommoded for over a year by reason of the fact that this part of the National Pike has been closed. According to information frim Uniontown it will be but a few days until it will be open to traffic, a fact auto drivers will greatly appreciate.

WILL INVESTIGATE ENGINE EXPLOSION

Interstate Commerce Commission investigators were in Brownsville on Thursday, and are conducting an investigation into the circumstances surrounding the explosion of the locomotive at West Brownsville junction at 9:30 o'clock Wednesday night. Reports were current following the explosion that itwas due to soap having been placed in the boiler flues or some other method used to cause the explosion.

Alleged perpetrators of the crime leading up to the explosion are declared to be former railroad workers who did not return to work following the strike on the P. & L. E. railroad last spring. Engineer Collins, who was injured in the explosion, said on Thursday that he had been having trouble with the water in the boiler evening

"Ten thousand francs for that old picture? . . . . I could understand it, of course, if you were offering a modern painting—with oil at its present price. But in the eighteenth century oil wasn't worth more than 4 sous a gallon!"—Le Pele Mele, Paris.

Many Words in Small Space.

A wonderful example of microscopic writing is the work of a Canadian, who succeeded in transcribing Francois Copee's novel of "Henriette," containing over 10,000 words, on the back of an ordinary cabinet photograph

"Hyphenated Americans."

It is claimed that the term "hyphenated Americans" dates prior to the year 1870, when John Boyle O'Reilly applied it to a remnant of the old-time toryism which objected to the nation-wide celebration which took place that year.

Next the Heart.

The left hand in France is universally regarded as that "of the heart" and is reserved for relatives and intimate friends and those toward whom the giver is unusually well disposed.

CAR LINE REPAIRS ABOUT FINISHED

Repairs to the tracks of the Pittsburg Railways company, between the sub-station near Twelfth street and Fifth street, are about completed, only a little finishing work remaining to be done. The repair work will end at Fifth street, as the company says the expense is too great at the present time to continue it to Maple creek as local officials had suggested.

On the stretch of track repaired new and heavier rails were laid whilethe road was laid in concrete on which the paving brick were placed, the only stretch of street in Charleroi thus constructed. When the repairs have been finally completed the repaired track will be the finest on the line between Pittsburg and Roscoe.

FAYETTE COUNTY WAR CHEST IS CLOSED

Appropriations totaling $120,989.56 were made and orders drawn for their distribution Wednesday afternoon by the Board of Directors of the Fayette County War Chest, which virtually closes the work of that war-time relief and welfare fund organization. Approximately $1,000 was retained in the treasury to cover final administration expenses and any surplus that might remain was ordered turned over to the Fayette County Children's Aid Society, which will also receive any delinquent payments made upon pledges.

The largest appropriation of $71,987 was made to the Fayette County Red Cross Chapter, with which that organization will be able to continue its peace-time program. A total of $22,000 was distributed to organizations of world war veterans. Ten American Legion Posts receive $15,000 and the Posts of the Veterans of Foreign Wars at Uniontown and Connellsville each receive $2,500. Other organizations remembered are the Near East Relief Committee, the American Commission for Jewish Relief and the Fayette County Children's home.

Mrs. Mary Fink and daughter Ruth of Youngstown, Ohio, and Marjorie Hornbake of Clairton have returned home after a few days' visit with Mrs. M. Olsen of McKean avenue.

Ancient Money.

The first coins used by the civilized nations of the ancient world were small metal ingots stamped with a ruler's seal. It is probable that they were first minted in Lydia, the rich Asian kingdom of which Croesus was the most famous king. The "punch-marked" coins of India are assigned to a period older even than that of Buddhism.

Bass Drum and Viol in One.

An orchestral percussive instrument that combines the booming resonance of the drum with the range of the double bass viol, according to Popular Mechanics, is the latest in Russian musical novelties. In form it is a combination of both instruments, the four foot finger board being fixed to a skin covered drum.

Walk Around a Ring.

A Tennessee investigator made a series of more than fifty experiments for the purpose of disproving the assertion that blindfolded persons walk in circles but he was unable to do so, for all the persons in the tests departed from the straight line as they walked away from the starting point.

Official Tattooing.

In some countries tattooing is adopted for several purposes. For example, in Samoa when a woman is married several tattoo marks are placed on her, and both in Fiji and Samoa the birth of each child is registered in this way on the mother's hand.

Mahogany Tropical Tree.

The true mahogany grows only in tropical countries, particularly in Central America, the West Indies, Mexico and Peru, though small ornamental trees are grown in southern Florida. The western sumach or mahogany grows in lower California.

He Has It Coming.

"Should wife's husbands have heavier damages?" was a question raised in a recent divorce action. The latter opinion is that the fact that the ugly man must have gone out of his way to get married should tell against him.—Punch.

Old Moors Made Paper of Linen.

The first manufacture of paper from linen rags has been attributed to the Moors of Spain, at dates ranging from before the tenth century to the year 1470.

Analogous.

The more you puff a cigar the smaller it becomes. And that's the case with some men.—Boston Transcript.

Pigments From Coal.

The pigments of more than 400 colors are obtained from coal.

NEW CHANNEL-SWEEPER IDEA

Claimed That It Will Be of Vast Importance in the Maintenance of Barge Canals.

To aid in the maintenance of the New York state barge canal, a channel sweeper has been devised, not heretofore demanded by the construction of the older canals, writes Gordon P. Gleason in Popular Mechanics Magazine. As time goes on and the banks disturbed by recent excavations assume their natural slopes, the need of dredging will become less. Investigations, however, show that within one year sufficient material may be deposited within the canal to make the available depth of water considerably less than the prescribed 12 feet. An example of this was found in the channel east of Oneida lake. This was completed in a full 12-foot depth in 1909, yet, in 1917, it was so washed in with sand that it was necessary to remove thousands of cubic yards of this material.

To aid in the locating of obstructions in the canal the state engineer has designed a novel channel sweeper, and boat builders have been asked to submit estimates as to the cost of these so that three of them may be placed on the canal.

The new sweeper consists of two boats, each 18 feet long and 6 feet wide. These are placed 15 feet apart and joined by timbers. An operating floor 30 feet long and 5 feet wide will be constructed near the stern, and suspended from this will be a 60-pound rail, 30 feet long, held by two chains at each end.

STRATEGY FAILED TO WORK

Last Resort of "Locked Out" Son-in-Law Only Served to Make Matters Worse.

His mother-in-law is deaf, "thick o' hearin'," as they said in the old days.

Mother-in-law went to the movie the other evening and, before leaving the house, requested that if the other members of the household went out the key be left in the mail box. The others did go out and the key was left in the designated place. When they returned the key was missing. Mother-in-law had locked the door and carried the key inside. She was seen sitting near an upstairs window, reading. The doorbell was rung until it ran down. The telephone did not reach her ears. Those left out in the cold, cold world were in despair. The neighborhood had been aroused by the noise made in attempting to make mother-in-law's defective hearing take spark. She read peacefully on.

Finally Mr. Son-in-Law had a happy thought. He would try strategy. He turned the hose on her window.

Mother-in-law thought it was raining, got up and closed all the upstairs windows and went back to her book. Strategy had not only failed, but had tightened the barrier of sound.

It was not learned just how those outside got inside.—Indianapolis News.

"Deadwood Dick" English Born.

Richard Bullock, known as "Deadwood Dick," was born at Cornwall, England, some eighty years ago. At the age of twenty-one he came to America and at length drifted to the West. For a while he worked in the mines in the Black Hill country. At that time miners there were greatly discouraged and vexed by the unusual activity of bandits. Desperadoes operating individually and in groups were holding up stages running between the mining country and the settlements in the East with such regularity that chance of getting their gold shipments through were slim.

Bullock saw in this situation an opportunity to do the miners a good turn and himself, too, to earn a good livelihood and to enjoy no end of thrills and adventures. So he laid away his pick and shovel, armed himself with a wicked-looking gun and embarked in the business of hunting "road agents."

A "Burning Well."

Water and fire aren't usually considered good friends, but under certain circumstances they may unite to form an interesting and beautiful natural phenomenon. This is the case near Mobile, Ala., where for years a "burning well" has been the center of attraction for visitors and residents of the city. Bored originally for an artesian well, the product of the hole was a tremendous flow of salt water, heavily charged with chlorine gas.

How this gas first took fire is not known, but burn it does, and the deep orange flames, uninjured by the water, not only spurt high with the flow of the crystal stream and color its white foam, but they run along the circular pool about the well in continuous sweeps of bright color.

Early Sewing Machine.

Thomas Saint, an Englishman, obtained a patent for the first sewing machine in 1790 in London. The mechanism of the machine was made of wood.

Present and Prospective.

June is the circus month—also the month of some one-ring affairs that lead to circuses later.—Boston Transcript.

Sacred Mantilla.

In Spain a woman's mantilla is held sacred by law and cannot be sold for debt.

TELL OF BABYLONIAN LIFE

Interesting Revelations in Clay Tablets That Were "Written" On Some Forty Centuries Ago.

The University of South Dakota at Vermillion has come into possession of 61 genuine Babylonian tablets, discovered by Arabs in the ruins of buried cities and collected at Bagdad. They have been deciphered by Dr. Edgar J. Banks of Alpine, N. J., an authority on these clay and brick records of 4,000 years ago, and their authenticity proved. Fully half of the tablets in this collection are perfect and all of them are legible. They are only a few inches in size and were written on when they were soft clay, later being dried, or baked. Most of them are of about the date 2350 B. C., a few going as far back as 2800 B. C., and others dating from the time of the fall of Babylon before the Persians, in 538 B. C. The most valuable tablet of the collection is a letter. Holes were made through it so that it might be attached to a cord and carried in this way. Next in point of value and interest are a number of neo-Babylonian tablets of sundried clay containing business contracts of all sorts and giving pictures of the life of the people after the Persian conquest. Of special interest is a small tablet of exercises in writing, done by some boy in the temple school over 40 centuries ago.

The sighting of a fleet of 14 icebergs, one with somersaulting tendencies, was reported by Capt. W. H. Flemming recently on the arrival here of the steamship Munaires from Rotterdam.

The bergs were seen about 750 miles east of Halifax. One of them, said Capt. Flemming, suddenly rolled over with a splash. As it tumbled, a large piece from the top was broken off, causing the berg to take a second tumble. As it was righting, another section broke off, and for the third time the berg turned over. It was about a mile astern of the vessel.—New York World.

A Good Catch.

It is impossible to repress a feeling of satisfaction over the feat of the Atlantic City game warden, who apprehended the owner of a seaplane guilty of shooting wild geese in the air. The law against this sort of "sport" is strict, and the penalty provided for offenders is ample. And, as bird shooting from the air is on a plane with the use of dynamite and seines in closed waters, the more rigidly the statute is enforced the better. Any leniency would be disastrous to the bird life of the country and calamitous to the United States.—Detroit Free Press.
